Best heroes lords mobile

Lords Mobile is multifaceted, and so, to dominate, you need to find success through all elements of the game. The most important component to work with would be your heroes. Below is our list of the best most important heroes in Lords Mobile. Included in this list are the Hero benefits across all factors in the game. We have included F2P (Free to Play) Heroes and also P2P (Pay to Play) Heroes. If a hero is free to play, I will automatically give it a percentage increase because it is more accessible. Of course, if we measured P2P against F2P, I would have no choice but to put all the P2P up on top ... Here's my list of best heroes in their order of greatest: Rose KnightTricksterLore Weaver (P2P) Storm Fox (P2P) Prima DonnaBombin' GoblinTop Troop Paid Hero (P2P) Demon SlayerTrackerChild of Light, Snow Queen Oath Keeper and Black CrowGrove Guardian (P2P)Dream WitchDeath KnightWitch DollBig GuySongstress of the SeaAt the end of the article I also put my top list of heroes for the Colosseum.1. Rose Knight #1 Top Lords Mobile HeroRose Knight is one of the last heroes to be unlocked (unless you pay for her), but the general #1 the hero on our list. She is the most effective hero at the Colosseum, especially when maxed. She and the healer (Prima or Lore), will be part of almost every Colosseum lineup. Rose Knight are the best F2P colosseum heroes. Period! Her Justice Call skills protect all the other heroes in the team and her stun is amazing. Her Timber Boosts aren't that far above average, but the Colosseum advantage and Army Attack Boost make her irreplaceable. I would recommend bringing her to gold as soon as possible, or at least to purple before focusing on other heroes. I would strongly recommend maxing Rose Knight (or maybe trickster) to gold before any other hero. To learn everything you need to know about rose knight, click here.2. TricksterThe Trickster is one of the most important heroes of Lords Mobile. He has an attacking arrow that is pretty much unprecedented in Lords Mobile. His toy arrows carry a real blow. Trickster is one of the most physically powerful heroes in Lords Mobile. His research promise is so good (25% extra) that I would recommend focusing on bringing him to gold as soon as possible. To learn more about Trickster, click here. The reasons why Trickster is so important: Physical Attack, Research Boost, Colosseum, Energy Boosts.Just one note. Don't use him in battle. He's useless in game.3. Lore Weaver: I am very hesitant to place a P2P (pay to play) quite so high up the list, but the truth is I can't help it. Lore Weaver is too good not to be right up the top. She is an incredible hero and my #1 top recommendation when it comes to pay to play heroes. She is incredible for healing in the Colosseum and her war army statistics are off the charts. If you plan to spend money on heroes, make sure you buy Lore Weaver first! She's a cavalry leader, but strongly recommend her even if you do not specialize in the cavalry!4. Storm FoxYes, I know some of you are rolling your eyes now that you see another P2P right up the top, but what can I do... This hero is amazing at war... Most people don't know about Storm Fox, and that makes her even more powerful! Her army statistics are incredible. Click on my P2P hero article to learn more about why she is so amazing! If you already have Lore Weaver and you do not specialize in cavalry, I would get army heroes of your preferences. But if you have cavalry, Storm Fox is a complete no brainer! She is cheap compared to the heroes of the army, and she will tear apart your enemies... 5. Prima DonnaPrima Donna is a difficult hero. She looks innocent, but on further inspection there is a lot of weirdness going on. Her skill set is pretty much the same. Her increases primarily contribute to siege attacks. Yuck. She's weak. Even her magical attack on monster hunting is ineffective. So why is she on this list? Simple. She heals other heroes, and she's good at it. Prima Donna is perfect for almost any combination. She is usually the reason you want to win or lose a Coliseum match or scene. This redempating quality makes her one of the most important heroes of Lords Mobile. If only you, un-dear reader, had a redeeming quality ... Important note: Lore Weaver is a far better hero and is 100x better than Prima Donna. To truly understand the difference between these two heroes, click here.6. Bombin' GoblinBombin' Goblin is quite useless completely in many ways. He looks like a toy that was played with for far too long. He looks eerie and intimidating, and not in a funny way. However, he is F2P, and he, like Rose Night, has a fantastic army attack. Once powered up to gold, Bombin' Goblin will give you a 20% Army Attack Boost. It's massive! If you want to go to war (and don't want to pay a fortune for P2P heroes) Bombin' Goblin is a must. If you were tempted to use Bombin' Goblin in the Coliseum, I'm going to save you the trouble, don't do it. He's useless.7. Top P2P Troop HeroDe most of you are probably confused by this item on the list and that's because you haven't yet read my advice on P2P heroes. If you plan to spend money on your heroes, please do not spend a cent until you read that article. You'll waste time and money otherwise. Each troop type (Infantry, Range and Cavalry) has its best P2P hero. Find out which troop type you prefer, and then focus on that hero. Infantry: Twilight PriestessRange: Petite DevilCavalry: BarbarianWhy these P2P battle heroes and not the others? Read the stupid article and stop being lazy!8. Demon SlayerThe Demon Slayer is a wonderful hero. He looks tough, and he's tough. A lot of people will always have him in their Colosseum lineup (I don't), but there's no denying that he's deadly. I've seen him - many times do 90% of the work and wipe out enemy heroes almost alone. During a war, he is an incredible infantry hero and 30% ATK and 50% HP. He is also an incredible Monster Hunting Hero and is almost all Strength Monster Hunting Lineup.9. TrackerTracker has a misunderstood portfolio. People know she's a great hero, but hardly anyone realizes how good she is. Her appearance makes her seem like a joke, but she's anything but. Her attack is the strongest single hit that anyone completely delivers. She's great in Collosum as a support hero. Almost all Collosum teams will always have Tracker in them. In ATK Monster Hunting and Hero Stages, she is in almost every lineup. Her Battle Skills is good (but not excellent because she lacks HP), and when she's in gold she'll add 30% ATK to all areas that she leads.10. War Heroes-Heroes with ATK and HP: Child of Light, Snow Queen, Oath Keeper and Black CrowIt's a lot ... I know. These heroes are all tied at 10. They are not quite exceptional in the Colosseum and Monster Hunting (aside for the Black Crow), but they are incredible war heroes. If you lead a march against your enemy, you will want to have these heroes leading your troops. Once you have maxed out your fellow heroes, I would recommend focusing on which hero leads your troops by preference! Child of Light: CavalrySnow Queen: RangeOath Keeper: InfantryBlack Crow: Range11. Grove GuardianThe Grove Guardian is incredible in the Colosseum. If you want to hit the top of the Colosseum, and stay there, get the Grove Guardian. He's weird. Secure. But he's effective. Of course, like the other heroes, you need to stop smoking weed and send all your money to IGG instead... The compromises we make for love... Unfortunately, he does not come with any administrative skills, but he is also a wonderful Range Leader.He is incredible for colosseum!12. Dream WitchDream Witch is a truly great army hero, second only to Lore Weaver Storm Fox. If you have already focused on the other P2P heroes, I would strongly recommend getting her. She is a touch more expensive to max, but worth every cent (which you probably do not have) ... Simply put, if you have the money and you plan to waste it on \$99 resource packages, you might as well use it for Dream Witch... 13. Death KnightThe Death Knight may seem so far too intimidating that he is actually comical, but he is a big-ish hero. His ultimate power throws all the nearby enemies towards the back of the Colosseum. He's a powerful tank, even rival HP of Big Guy.His Cavalry Battle Skills isn't great at all (although I see so many people using him all the time). There are better heroes when it comes to Battle Skills, even cavalry. However, the Death Knight shines when it comes to colosseum combat and monster hunting, especially for novice F2P players. I strongly recommend him until you are ready to upgrade to the better heroes! Important note: When you get on in the game, Death Knight becomes obsolete ... 14. Witch DollWitch doll is another great colosseum hero. She doesn't have to be maxed out to be Green Shield should be enough. Her ultimate attack is incredible, and her magical attack is incredible. She can unlock all enemy heroes at once, forcing them all to sit ducks while the rest of your lineup pounds your enemy to death. When she burns, she wins the battle for you on her own! Unfortunately, her combat skills are all admin (that is, not for combat, but rather technology), which is why she is so far down this list!15. The Big GuyBig Guy is a tank hero, but with amazing bonuses for beginners. He is P2P (Pay to Play), but one of the cheapest heroes to max fast. In addition to his power in the Colosseum, he also adds providing a 30% building boost when gold. As a leader in combat, he gives an incredible first boost to the infantry (but later he is average at best). The Big Guy costs only \$275 to the max, and you can do it all in one shot. An additional element of Big Guy, are bonuses that come in the package. The packages along the way are amazing. Important note: Just get the Big Guy at the beginning. When you hit C25 and beyond, your Big Guy Hero will somehow be wasted. Unless you want to build a strong infantry army, and even then ehhhhhh ... For a rookie player, I would rank Big Guy much higher up this list, but for an advanced player, he probably doesn't even belong here!16. Songstress of the Sea: I'm not too happy to put another Paid to play quite so high up the list, but she's very good for range troops. She's an incredible war hero. It's that simple. If you are a range person and want to dominate KVK, own the fort, and control bases you need a hero like Songstress.Here is her army increases on gold:A unified Army ATK of +25%Army max Health Power at +25%Army Defense of +25%Songstress may lack a lot of clothing, but she does not lack any skills. She's a hero who's fit for a light rally leader. She costs about \$1,275 to buy to gold in one shot, but only \$110 when doing it slowly. Compared to \$11,000 to max some of the other fight P2P heroes she is basically a bargain. If you want to dominate KVK and you want to use range, I would strongly recommend getting Songstress.Best Colosseum LineupBefore you get into the overall best heroes to have (and max), first we will show you the best Colosseum lineups. Of course, depending on the constellation and on the opponent's lineup, these lineups may vary, but here are my favorite Colosseum F2P heroes. Top F2P Lineup: Trickster, Rose Night, Death Night, Prima Donna, and Black Crow.Alternative F2P Lineup: Tracker, Rose Night, Death Night, Prima Donna, and Demon Slayer.Top P2P Lineup: Rose Night, Lore Weaver, Tracker, and Demon SlayerTo learn how to reach number 1 in the Coliseum, click here to read my Definitive Guide.Which Heroes to never use as a leader? This article has been about the good heroes ... Here's a little about the bad heroes. Feel free to watch my video (and ABONNERS on my channel or (Don't use him for Leader) Siege heroes: Elementalist, Incinerator, and Prima DonnaArmy hero without ATK combat skills: Death Knight, Scarlet Bolt, Shade, Sage of Storms, and Black Crow
